

Radius 3" x 5" Orbital Sanders

This innovative sander was designed to help OEMs and maintainers deal with the concave surfaces of certain aircraft jet intakes. In the past, sanders would only make contact with the outer edges of the abrasive on concave surfaces. These tools follow the contour of the aircraft skin providing even contact over the entire abrasive surface. Lightweight and rugged composite housing with patented bearing design for extended motor life.

- Designed in cooperation with Lockheed Martin for F-22 intakes
- Designed in cooperation with Northrop Grumman for F-35 intakes
- Bypass exhaust prevents contamination of work surfaces
- Available in two sizes for narrow and wide concave areas
- Backup pad extended nose and tail allows sander to accept 5" disc abrasives

Sanders include:

- Curved J-Hook backup pad for hook & loop abrasives
- Swivel adapters for 3/4" and 1" vacuum hose
- Wrist support
- Standard 3/16" orbit and 10,000 RPM
- 1/4" (6.4mm) Air inlet
- CE certified

F-22 Raptor

F-35 JSF Intake

Radius 3" x 5" Orbital Sander (76 x 101 mm)

| Model | NSN | GSA | Radius | Motor HP (W) | Sound Level | Air Consumption CFM (LPM) | Weight lbs (kg) | Dimensions inch (mm) | Price |

- ① Bypass Exhaust channels the compressed air exhaust into the central vacuum line eliminating possible work surface contamination.
- ① All tool performance ratings measured @ 90 PSI (620 kPa) compressed air pressure.
