

Hand Sanding Blocks

Clayton hand sanding blocks provide dust free sanding without a compressed air supply. They're ideal for quick spot repairs, or areas where finesse is required. The hand sanding blocks can be easily connected to either a Clayton vacuum system or a central vacuum.

The ergonomic design fits comfortably in the palm and ensures fatigue-free sanding. For best results, use these sanders with DustMaster Supreme Abrasives.

- Multi-hole pattern evacuates dust quickly and evenly
- Sanders include 2' of 1" hose and Swivel adapter for connection to 1" vacuum hose
