

DustMaster CTK Systems

The DustMaster CTK Systems combine a DustMaster Electric or Pneumatic vacuum with a CTK to form a single self contained portable unit with space for hoses tools and abrasives in a single place. This makes deployment and storage a one man job.

Features

- Supports up to 3 users
- Use a single compressed air line and an internal manifold to supply 3 users with compressed air
- Self closing vacuum port prevents hazardous dust from escaping when not in use
- Heavy duty dual motors
- ULPA filter captures 99.999% of particles 0.12 µm and larger
- Pre-filter protects ULPA filter for longer life
- Includes all filters and bags for turnkey operation
