

DustMaster CTK / Cyclone Systems

The DustMaster CTK Cyclone systems, in either Electric or Air Powered, include the addition of our Cyclonic separator that captures 99% of debris before it gets to the primary filter bag. This means fewer filter changes and less loss of suction. The cyclone is only available with the CTK.

Features

- Use a single compressed air line and the internal manifold to supply 3 users with compressed air
- Supports up to 3 users
- Self closing vacuum port prevents hazardous dust from escaping when not in use
- Compact Design - 27w x 21d x 20h
- Heavy duty dual motors
- ULPA filter captures 99.999% of particles 0.12 µm and larger
- Pre-filter protects ULPA filter for longer life
- Includes all filters and bags for turnkey operation
